Public Health Districts Chronology of Major Law Changes

Updated May 2012.

Districting Law - Idaho Code Chapter 4, Title 39-401 through 426.
The following are Legislative and other changes with the year they occurred.

1970 Idaho Legislature passes Districting Law establishing seven Public Health Districts.
Effective July 1, 1971.

1970 Session Laws – House Bill 412.

The following reference is from the original district law. "...but in no case shall this be less than thirty-five percent (35%). The percentage of general state aid shall be uniform throughout all districts.

1971 District Health Departments come into existence. State Board of Health (SBOH), to avoid duplication of efforts, delegates public health programs to the Districts with provision that SBOH must approve all District rules and regulations.

Original Legislation required State Legislature to match money contributed by counties for support of District (35:65 ratio - State:County).

1973 Session Laws – House Bill.

This section was changed converting the 35% match to 54% of the ad valorem tax; "...uniform throughout all districts..." was eliminated and inserted was, "The percentage of general state aid shall be distributed so as to provide no less than fifty-four (54%) of the ad valorem taxes contributed by each county, computed on individual county basis."

1973 State financial support of Districts increased to 54% of county ad valorem tax.

1975 Session Laws – House Concurrent Resolution 26.

Authorized the establishment of a committee to study relationship between Department of Health and Welfare and the Health Districts. This led to many changes being made in our law the following year.

1976 Legislative Council study results in the following legislation:

- I. Legislative Intent added to District Law. (39-401)
 - 1) Health Districts are not State Agencies, but single purpose districts.
 - 2) Authority of District Director affirmed to prescribe position and qualifications of staff and requiring compliance with the State merit system and participation in retirement system.
 - 3) The matters of location and deposit of Health District funds and documents of payment from these funds do not reflect upon health district's non-State agency status.

- II. Legislation:
Clarified relationship between Health and Welfare and the Health Districts and, placed time limit of approval of District rules and regulations by SBOH. (Interim Committee had recommended removal of approval requirement.)
- III. Changed method of computing each county's share of District's budget from that of using only the total population to using 70% population and 30% assessed valuation (changed to market value in 1986).
- IV. Removed previously required match by state of contributions raised by counties.
- V. District funds were no longer combined with Health and Welfare funds, with each District having its own account requiring it to operate on cash flow basis.

1976 Session Laws – Senate Bill 1264.

Many changes were made in the District Law strengthening the District and separating us from the Department of Health and Welfare. Section 425 was changed as it related to the distribution of the funds. Bill passed March 19, 1976.

1976 Session Laws – House Bill 689.

Repealed Section 39-425 and added a new 39-425. The major changes were (1) the elimination of the required match by the state, of money contributed by the counties; (2) elimination of the following wording, "The percentage of general state aid shall be distributed so as to provide no less than sixty – seven percent (67%) of the ad valorem taxes contributed by each county, computed on an individual county basis;" (3) inserting the word "request" into the section. "...a request for money to be used to match funds raised by the levy of the counties,..." The matching amount to be included in the request shall be sixty-seven percent (67%) of the amounts pledged to be raised by the levy of each county..."

1977 Legislation requiring a yearly audit to be performed by Legislative Auditor (changed to every two years in 1982).

1980 Attorney General issues an opinion that Permanent Building Fund money cannot be appropriated to Health Districts.

Legislation authorizing District Boards of Health authority to establish fee schedules for services rendered.

1984 Legislation increasing District's Board of Health memberships so each county commission may appoint a board member.

- 1986** Legislation stating the State Board of Health and Welfare has 75 days to disapprove District regulations and only if in conflict with state law.
- 1986 Session Laws** – Senate Bill 1355.
Elimination of the director of Department of Health and Welfare from our budget request to the legislature.
- 1988** Legislation allowing Health Districts to exchange or sell real property and enter into leases with the Idaho Health Facilities Authority.
- 1990** Legislation providing for a minimum amount of state matching aid to provide for limits on state liability (minimum match of 67%).
- 1990 Session Laws** – Senate Bill 1460.
Provides for the matching amount to be included in the request shall be a “minimum” of 67% of the amounts pledged by the counties. Also changes state liability from 67% of contribution by each county to funds actually authorized or granted to districts.
- 1993** Legislation requiring that measures adopted by Public Health Districts be adopted in compliance with the Administrative Procedures.
- 2007** Legislation changing Idaho Code 39-412 to reflect a change in the compensation of Board members, to reference Idaho Code 59-509(i).
- 2007** Legislation changing Idaho Code 39-411 composition of District Boards of Health to allow those Districts comprised of 8 counties to consist of not less than eight members or more than nine members.
- 2008** Legislation changing Idaho Code 39-414 to change our language “For purposes of this chapter, a PH district is not a subdivision of the state and is considered an independent body corporate and politic, in terms of negotiating long term debt financing. (This will move Local PH outside the Frasier legal case for debt financing).
- 2010** Legislation changing Idaho Code, Section 39-411 to add language that allows boards of county commissioners to appoint their representative Board of Health member at any time if the current Board member leaves office.
- 2010** Legislation changing Idaho Code, Section 39-416 to add language that requires public health to have all proposed rules regarding environmental protection or programs reviewed and approved by the state board of environmental quality and adopted by a concurrent resolution of both houses of legislation. It is the intent of the legislature that standards and rules relating to subsurface sewage systems, wastewater treatment, sewage systems and water quality be consistent statewide.

39-401. Legislative Intent.

The various health districts, as provided for in this chapter, are not a single department of state government unto themselves, nor are they a part of any of the twenty (20) departments of state government authorized by section 20, article IV, Idaho constitution, or of the departments prescribed in section 67-2402, Idaho Code.

It is legislative intent that health districts operate and be recognized not as state agencies or departments, but as governmental entities whose creation has been authorized by the state, much in the manner as other single purpose districts. Pursuant to this intent, and because health districts are not state departments or agencies, health districts are exempt from the required participation in the services of the purchasing agent or employee liability coverage, as rendered by the department of administration. However, nothing shall prohibit the health districts from entering into contractual [contractual] arrangements with the department of administration, or any other department of state government or an elected constitutional officer, for these or any other services.

It is legislative intent to affirm the provisions of section 39-413, Idaho Code, requiring compliance with the state merit system, and to affirm the participation of the health districts in the public employee retirement system, pursuant to section 39-426, Idaho Code, chapter 13, title 59, Idaho Code, and chapter 53, title 67, Idaho Code.

It is also legislative intent that the matters of location of deposit of health district funds, or the instruments or documents of payment from those funds shall be construed as no more than items of convenience for the conduct of business, and in no way reflect upon the nature or status of the health districts as entities of government.

This section merely affirms that health districts created under this chapter are not state agencies, and in no way changes the character of those agencies as they existed prior to this act.

39-408. Establishment of Districts.

If revenues to the state treasury are insufficient to fully meet appropriations, and reductions in spending authority have been ordered pursuant to law, the amount of moneys to match revenues contributed by the counties, pursuant to section 39-423, Idaho Code, which has been appropriated pursuant to this section, shall be reduced by the same percentage rate as other general account appropriations.
