Panhandle Health District Confirms First COVID-19 Related Deaths in Bonner County

BONNER COUNTY, IDAHO – Panhandle Health District (PHD) is reporting the first and second deaths related to COVID-19 in Bonner county. The individuals, a man and a woman, resided in Bonner County and were in their 80s. Out of respect to them and their families, no additional details will be released. We have had a total of 68 COVID-19 related deaths in our area. Forty-four of the deaths have occurred among Kootenai county residents, three deaths have occurred in Benewah county residents, one death among a Boundary county resident, and eighteen of the deaths have occurred among Shoshone county residents.

“Our thoughts are with the families and loved ones during this difficult time,” said Lora Whalen, PHD Director.

PHD urges all residents to take precautions to slow the spread of COVID-19. This includes, practicing physical distancing, wearing cloth face coverings in public places, practicing good hand hygiene, staying home when sick, sanitizing high-touch surfaces regularly and isolating immediately if you show symptoms of COVID-19.

PHD will continue to monitor the situation closely and are working with the Idaho Department of Health and Welfare, city leaders, our tribal communities, schools, emergency management, first responders, healthcare providers, and our community at large to help prevent the further spread of this virus. The Panhandle area covers the 5 northern counties, Kootenai, Bonner, Benewah, Boundary, and Shoshone.

According to the CDC, people with COVID-19 have had a wide range of symptoms reported – ranging from mild symptoms to severe illness.

Symptoms may appear **2-14 days after exposure to the virus**. People with these symptoms may have COVID-19:

- Fever or chills
- Cough
- Shortness of breath or difficulty breathing
- Fatigue
- Muscle or body aches
- Headache
- New loss of taste or smell
- Sore throat
- Congestion or runny nose
- Nausea or vomiting
- Diarrhea

This list does not include all possible symptoms.

For more information regarding COVID-19, visit panhandlehealthdistrict.org/covid-19 or call the Panhandle Health District Hotline Monday – Friday from 8:00 am – 5:00 pm at 877-415-5225.

Panhandle Health District provides over 40 different public health programs to families, individuals and organizations in northern Idaho. From food and drinking water safety to health education and disease control, public health services are critical to ensure our community is a safe and healthy place to live, work and play.

The PHD team is made up of nurses, nutritionists, environmental health specialists, health educators and many other dedicated professionals with a common goal to deliver vital public health services.

Panhandle Health District is one of seven health districts in the state of Idaho.
