Syphilis, non-congenital	20	30	56	49	4
Tuberculosis	1		1	4	1
Yersinosis		1	2	6	
Zika virus disease, non-congenital				1	

Notes:

Influenza have started to decrease in Idaho – It is still best to [wash your hands frequently](#), [practice safe coughing and sneezing etiquette](#), and [stay home when you are sick](#).

Pertussis (Whooping Cough) is on the rise in Idaho - In its early stages, whooping cough appears to be nothing more than the common cold, therefore vigilance is important. Prevention includes vaccination, practicing safe coughing and sneezing etiquette, washing your hands often, and staying home when you are sick. More information can be found on the [CDC website for Pertussis](#).

Lead in Cinnamon-flavored Applesauce Pouches – Certain brands of cinnamon-flavored applesauce pouches have been found to have high amounts of lead. Review the investigation and dispose of applesauce pouches in your home as necessary [here](#). If you think you may have symptoms of lead toxicity after eating recalled fruit pouches, contact your healthcare provider.
